We surf twice daily to develop campers' individual skill sets as they tackle waves big & small at their own pace. Two instructors are in the water all the time teaching and assisting on surf fundamentals and advanced manoeuvres. This program is a perfect mix of surfing & lessons, camping, hiking and a whole lot of West Coast fun, for beginner and experienced surfers alike. All surf gear is provided including both short and long boards, wetsuits, skim boards. Our base at the Ucluelet campground offers nice amenities, including a hot tub & sauna. We surf at a different beach location daily depending on swell, tide and winds. We culminate the last surf day with a fun surf competition where everyone can excel and have fun. ## Kayak and Surf Camp-

This program is an excellent combination of kayaking in the Gulf Islands and a Pacific Rim surfing adventure. Students are taught by seasoned instructors and are provided with all the necessary equipment. Kayaking base skills are learned through two days of training on Salt Spring Island, followed by an exciting 5 day kayak expedition through the beautiful Gulf Islands. Campers visit Provincial and National Marine Parks around Salt Spring. There is a one-night change over evening back on Salt Spring prior to packing up the van and leaving for our Surf Program which heads to Ucluelet and Tofino, on the West Coast of Vancouver Island. We then have the rest of our time to catch waves, learning the finer points of surfing and exploring the beaches and old growth forests of Pacific Rim National Park. Campers gain a solid outdoor skill base while building a strong appreciation for West Coast water-based activities. Safety, skill acquisition, friendship, team building and most of all fun are the goals for this two-week program.

## Leadership Camp: Ages 16-19

This expedition-based camp is led by our most highly trained guides. Students help coordinate meals, route-plan, learn to navigate, evaluate weather conditions and set-up daily camps at various locations around the Gulf Islands. There is leadership learning through scenarios, that help students to make quick decisions in supervised incidents. Intended to give older students the experience of taking on leadership roles, decision making and practicing outdoor skills that will make them safe and efficient when kayaking on the West Coast. This camp combines hands-on learning and the exploration of this diverse marine eco-system. Students will have the opportunity to view seals, sea lions, porpoise, eagles sometimes even orcas as they kayak to multiple National and Provincial Parks. Leadership Camp is recommended for students who have previously taken our Overnight Kayak Camp or have gained kayak skills at other camps and courses. We paddle longer distances and are pushed more physically. Students get to learn from our Online Campus prior to the onset of camp so they can view strokes and rescues, videos and learn tide and current calculations before arrival.
